

## Highway Crash Kills Miss Mary Davidson

Fiance Felt Severely As Auto Strikes Route 111 Construction Area

An engaged couple which had ordered invitations for a Sept. 22 wedding was ported by death in a tragic traffic accident on Route 111 at 3:30 a.m. Saturday.

Miss Mary Ann Davidson, 20, of 2115 Woodlawn avenue suffered a neck fracture and was pronounced dead upon being rushed by ambulance to St. Elizabeth Hospital. Her fiance, Gary Moore, 21, of 2328 Terminal avenue was seriously injured and was admitted to the Wood River Township Hospital.

Moore was driving north on Route 111 and apparently did not immediately see a barricade and temporary detour at a point south of Bypass 66 where Interstate Route 270 will cross 111 state troopers said.

The auto struck the barricade, hurled an excavation in the roadway and left the highway, coming to a halt against an embankment at the road construction site.

Moore, a McDonnell Aircraft Corp. employee, is in fair condition. He suffered a deep laceration on his forehead and reported chest pains.

Late Shift At Work He ended his shift at McDonnell late at night, and the engaged couple often went out for dinner after his work. On this occasion, they had gone for an auto ride.

An inquest is to be conducted by Deputy Coroner Henry Pieper.

A Granite City high school graduate, Miss Davidson, worked for the past year at the Granite City Engineer Depot, where she was a clerk-typist. She was born in Granite City and was a lifelong local resident. Her church was St. John United Church of Christ.

She resided at the Woodlawn address with her mother, Mrs. Mary Davidson. Her father, Lynn Davidson, is deceased.

Besides her mother, she is survived by a sister, Mrs. Mary Deatherage of Granite City, and her grandmother, Mrs. Ida Davidson of Granite City.

Funeral arrangements are given in the obituary column.

## United Fund Campaign Goal To Be \$299,231

Similar To Budget Of Last Year Drive Will Be Conducted In Fall

Similar To Budget Of Last Year Drive Will Be Conducted In Fall

United Fund campaigners will seek \$299,231 contributions in the Quad-Cities this fall—4.7% more than the \$280,318 collected last year but only one fourth of one percent over the last goal of \$298,463.

The goal was announced Thursday afternoon at a quarterly U.F. board of directors' meeting. Campaign administration costs were added to \$262,019 agency allocations.

To reach the new goal will require a \$4.10 per capita donation, figures presented to the board show. This compares with last year's \$4.09 goal and \$3.94 average contribution in the Quad-Cities.

The national average for cities raising \$100,000 to \$500,000 is \$3.88. Some cities in this category raise over \$5 per capita, it was noted.

Included in the budget are \$19,963 administrative costs, down \$318; \$7249 for AFL-CIO Community Services, down \$415; \$4000 campaign costs, up \$800; \$6000 pledged shrinkage, no change; and \$262,019 agency allocations, up \$426. The administration allocation includes office costs and salaries.

Community services is a labor organization designed to mobilize union support for the U.F. campaign and to assist union members in solving personal and welfare problems, including referral to U.F. agencies.

Low Campaign Costs Campaign costs for the local drive are quite low, U.F. Manager John Schenker said. The \$4000 figure represents 1.3 per cent of the total goal, compared with a national figure of 3.6 per cent.

Also heard at the board meeting were complete reports from the executive and administrative committees. The admissions and distributions have heard membership agency budget requests and made recommendations to the board. The executive committee has approved a U.F. business between board meetings.

Also included in this year's campaign tentatively planned for October, is John McBride, vice-president of the Granite City Steel Co. Management club, inauguration of Union Star and Refining Co. Vice-president is Ernest A. Karpinski, president of the Granite City Savings Bank.

Agency Allocations Included in the \$262,019 agency allocations are: Boy's Town of America \$39,510, Co-ordinated Youth Service \$17,790, Granite City Association for Aid to Retarded Children \$5000, Health Services Fund \$8000, Illinois Children's Home and Aid Society (Continued on Page 14, Col. 8)

## Vigorous Appeal By Truman For Party Support

Truman Citation--'One Of Greatest'

A framed certificate signed by 30 public and party officials of Madison and St. Clair counties was presented to former President Truman here Saturday night by Mayor John E. Lee at the close of his welcoming talk.

Headed "A salute to President Harry S. Truman," the scroll related that "your devoted friends and admirers appreciate the honor accorded by the visit here and at the county fair. This is an experience which will long be remembered," the statement continued.

We take pride that our Democratic people gave a large majority for you in the presidential election of 1948, thereby contributing substantially to your victory in Illinois. Your presence at this time will strengthen the will of our two counties in their objectives of working for the best interest of all the people. You will forever be remembered as one of our country's greatest presidents," the scroll concluded.

In introducing the speaker, Gov. Otto Kerner of Illinois called attention to the heavy Democratic majorities in Madison and St. Clair counties. He recalled that while traveling with Truman through Madison county Saturday, he had observed "love and affection" on the faces of countless persons who they saw the former president.

A golden opportunity for more lengthy introductions of candidates had to be discarded by Toastmaster Austin Lewis, himself a candidate, who was formed at the start of the 7:30 dinner that Truman had to leave for Lambert Airport by 9 p.m., instead of the 9:30 original listing. Kept busy making major of most of the people.

## Drainage Plan Would End 3 Acute Problems

Granite City's five-step program for pollution abatement and storm water drainage relief not only will qualify the city for up to \$20,000,000 federal urban redevelopment funds but will solve three major problems for the city.

The proposed \$10,000,000 revenue bond issue to be voted on Oct. 2 will:

(1) Provide the city with a sanitary sewer system to carry off storm water.

(2) Increase the capacity of the sanitary sewers for future growth and expansion.

age, will be used exclusively for sanitary sewage except for the larger lines close to the river. Through a system of interceptors, the city's 122,000 treatment plant and sewerage district's proposed \$2,937,000 treatment plant.

First—\$1,223,000 for treatment plant construction, completed in 1962, will be the cost figure given by the East Side Levee & Sanitary District.

Second—\$1,4

**TALL WEEDS** such as these, photographed last week in the 3500 block of Johnson road, are expected to be eliminated within a few days through enforcement of a Granite City law limiting the height of grass and weeds. City Inspector Jack Fricker has announced. Complaints have been received, based on the unattractiveness and the harboring of insects.

Sheriff's deputies allege they found the tavern open at 2:25 a.m. July 22 and Mrs. Marie Potts pleaded guilty the same day to remaining open after the legal county tavern closing hour, being fined \$118 by Edwardsville Police Magistrate William Traub. The legal hour is 1 a.m. on weekdays and 2 a.m. on Sundays.

### Cut In Plants' Natural Gas To Go Into Effect

The U. S. Court of Appeals in Washington ruled Friday against an appeal by local industries on Federal Power Commission "manipulation between classes of customers." They had sought an immediate suspension. There is no plan for a Supreme Court appeal.

The court declined to interfere with an FPC order reducing Mississippi River Fuel Corp. natural gas allocations to industrial customers and increasing allocations to utility customers. Ten plants, including several in the Quad-Cities, had contended the reduced supplies could compel them to curtail operations and lay off employees.

The decision was by Chief Judge Wilbur K. Miller and Judge Charles E. Felt. Their detailed opinion is to be released this week.

Altered gas allocations are scheduled to go into effect Oct. 1. The Court of Appeals cannot hear arguments until next year on the industries' request for permanent cancellation of the FPC order.

In opposing the industries' stand, Laclede Gas Co. of St. Louis, a utility customer of Mississippi River Fuel Corp., said the plant's supplies would not be "substantially impaired" this winter and said other fuel sources are available.

The FPC said industries have been favored too long already because Mississippi River prefers to sell to them on a "lucrative, unregulated" basis rather than to utilities at regulated rates. It described the appeal as an attempt "to extend for another heating season a shockingly illegal and inequitable state of affairs."

Two youths were fined and two others reprimanded for curfew violation by Venice Police Magistrate Wesley Edwards in hearings Saturday morning. All were arrested as result of a police crackdown following the July 20 city council meeting.

In other hearings, Robert Broadwater, 25, St. Louis, was fined \$15 plus costs for being drunk and disorderly July 26 on the McKinley Bridge. Donald R. ## Paddlers Hold Hawaiian Luau

Over one hundred members and guests attended the first adult night given by the Paddlers, Inc., board of directors on Saturday evening at the pool on Johnson road. The theme was a Hawaiian luau, or feast. Co-chairmen were Mr. and Mrs. Mike Kawula and Mr. and Mrs. William McGee.

The traditional Hawaiian dress prevailed with many ladies dressed in the mumsu, a long, loose flowing garment which is reminiscent of the old-fashioned nightgown, grass skirts, sarongs and swimming suits. The men favored the loof flowered aloha shirts or swimming trunks.

As each guest entered the pool deck, the men were greeted by Mrs. Vivian Gitchoff and Mrs. Nancy Graf, and the ladies were greeted by George Wilson and Jerry Sizemore. The entrances were decorated with bamboo screens and archways and grass. Golden palm trees were placed around the pool. The decorated coconut hulls and flowers and lanterns were fastened to the "vol" fege.

The steak and salad dinner was eaten in island fashion with guests seated on the pool deck with a bamboo runner for the tablecloth. Candles in shells and fruit filled watermelon baskets centered the tables.

Keith Parker, pool manager, acted as master of ceremonies and introduced Mrs. Flossie LeMasters who gave two hula dances.

## Credit Union Tightens Up Classic Race Again, 17-7

The Classic league softball race is one which will not be decided until the second week in August.

Granite City Steel Credit Union served notice to that effect Thursday night by upending Busy Bee Truck Stop at Wilson Park, 17-7, and moving back into a tie for second place with Rome & Roy's. The second-place club, trail Spengler Insurance by only half a game, and all three contenders have lost only twice.

With the league race so close, the dates of Aug. 7, 8 and 9, when five final classic games are scheduled, are the important ones in this particular park district league.

Those contests will include games between Spengler and the Credit Union, Rome & Roy's and the Credit Union and Rome & Roy's and Moose Club, which still has a shot at a playoff berth.

The Graniteites, who downed Madison Bowling Club 4-2 in Thursday's second game, have also crept into the picture as possible playoff contenders.

Top four finishers in the league at the end of the regular season enter the playoffs, and the Graniteites are high on the list behind fourth place Moose at the present time.

**Fielding Big Innings**

Credit Union did not eliminate Busy Bee from the playoffs Thursday, putting together four separate four-run innings behind the six-hit pitching of Jack James, who struck out 13.

Fred Cavins went on a batting spree for the winners, collecting four singles and a triple in six trips and driving in five runs.

The Credit Union put together 13 hits and picked up six runs, five passes off two Busy Bee hurlers, the first of which, Clyde Meyer, was the lower. The lower, however, errors committed in the loosely played contest.

Errors also paved the way to two runs for the Graniteites, their margin of victory over Madison Bowling Club in the second game. Loser Jerry Voloski wild-pitched a third run home, and the Graniteites' untold run came in the fifth when Bob Rains walked, swung second and rode home on Jim Rippey's double.

Pitcher Kenny Mitchell had MCB blanked on three hits until the bottom of the seventh when two balls, a wild pitch and single by Bob Kraus got two runs home.

The Classic league standings:

Team	W	L	Pct.
Spengler Insurance	8	2	.800
Rome & Roy's	7	2	.778
GC Steel Credit Union	7	2	.778
Moose Club 272	4	6	.400
Graniteites	4	6	.400
Busy Bee	2	7	.222
Madison Bowling	2	8	.200

## The 'D's' Have It—In Nameki League

It was a good day Saturday in the Nameki Little League — if your name began with the letter D.

Dan Allen, Don Durbin, Danny Schwendeman and Doug Conrad hit consecutive home runs in the third inning for the Blue Bombers during the course of a 31-5 win over the Optimists in a boys' baseball league make-up game.

## Sportsman's Ties Polish Hall For 1st Place, 6-5

Sportsman's Club gained a tie for first place in the Sunday morning Tavern Softball league by edging the Polish Hall, league-leader for most of the season, 6-5.

The Polish Hall club has been beaten only twice this season, and both times it has been Sportsman's which turned the trick. The two clubs ended the regular season with identical 12-2 records, necessitating a special playoff.

League representatives will meet at 7:30 p.m. tomorrow at Board Lanes to draw up the playoff brackets.

George Vivod was the winner in the important game, while Stan Seravakis took the loss. Al Pakus hit a home run for Polish Hall. Two long sacrifice flies helped Sportsman's to draw up the playoff brackets.

A third place tie developed when Club Delmar was beaten in a makeup game Saturday by Jug's Hideaway, 14-11, then rebounded yesterday to edge Green Hall 6-5.

Bowland's victory of Jug's Hideaway yesterday, 6-1, ended the regular season with 8-6 margin.

Junction Tavern downed Home of the Blues 16-13 in a real slugfest, with Ray Mikol's two eighth inning home runs the decider. Joe Mikol and Leo Clements also homered for Junction.

## McGowen Wins Feature At Speedway

Mac McGowen of Hardin, Ill., was the winner of the 25-lap main event for super-modified cars at the Tri-City Speedway racing program of the season.

McGowen's Saturday evening game Hammer and Chick Taylor finished second and third behind McGowen in the feature event which saw local drivers Spaulding and Dave Hollis shut out for the first time the season. Hollis dropped a rear end out of his car in qualifying heats, and Spaulding's car, carrying a new fuel-injection system, ran poorly.

Bill Field grabbed top honors among amateur drivers in a semi-feature race. Carl Springer won both preliminary heat races for amateur-class cars.

Clinton Landen was the feature winner in the feature-class race, and fender heat races went to St. Louis Janssen and Jack Sauls.

## Collinsville, Roxana Are Victims In I-C Games; McAteer Drops Two

Mercer Funeral Home and the Granite City Sacred Hearts kept little hopes alive in their respective divisions of the Inter-City Baseball league yesterday by grabbing double wins from Roxana and Collinsville's Boosters.

Mercer moved up to second place in the Blue division with 6-3 and 5-4 decisions over the Merchants of Wilson Park, while the Hearts came home from Fletcher field with 9-0 and 12-9 victories over the Boosters.

Dave Steplits sang his swan song as a Heart hurler by pitching a two-hit shutout against the Boosters in the first of two games in Collinsville.

The Engineer Depot soldier, who will be released from service this week, didn't allow a runner to reach second base as he fanned 14 and completed his 1-2 stint with the Hearts with a 4-2 record.

Sacred Heart hit loser Don Hefferty early and hard, scoring three in the first and four more runs in the second, and adding a sixth in the seventh on Dan Reilly's homer. Mike Stuess had four hits in the first game.

Hearts Have Big Inning

Stewart LaFuria hit a three-run homer in the first to give the Boosters a short-lived lead in the second game, but Paul Schuler's club rebounded with six runs in the second and never trailed afterwards. Reilly poked a two-run double and Schuler drove in two more with a single to highlight the upsurge.

Ray Cavale started for the Boosters and was the loser. Bill Smith took over in the fourth and finished up. Reilly had four hits in the eighth and ninth, and totaled four RBIs for the Hearts.

Rich Wade pitched the first five innings for the Hearts, and led in the sixth with a 9-7 lead. John Rains preserved the win. Jack Buester started and finished in Mercer's 6-3 first game win over Roxana at Wilson Park.

Charles Johannmeier's two-run homer in the first tied the score at 2-2 after Don Masterson had tripled with two on for Roxana in the top of the frame. Roxana led 3-2 in the second on Don Cobb's run-producing single.

Mercer sacrificed fly following Ken Cook's single, an error

## Madison Baptist, Niedringhaus And Bethel Triumph

Madison Baptist, looking like a shoo-in for the Church Softball league title this year, kept its record unblemished at Wilson Park Friday night by knocking Good Shepherd 18-4 in the last of three games played that evening.

Bethel Community was a 10-5 winner over Community Heights in the first contest, and Niedringhaus Methodist followed with an 8-4 decision at the expense of Cedar View Baptist.

Madison put together four-run bursts in the first, third and fifth innings against Good Shepherd, and bunched five extra-base hits in the fourth for five runs.

Wilson Jones opened with a home run. Bud Diller followed with a triple. Bill Page and Ron Smoltz added back-to-back doubles and Bob Page climaxed the frame with a two-run homer.

Frank Eaves, who allowed 13 hits, was the winner. Jim Sherman took the loss. Good Shepherd had one good frame, three-run fourth. Smoltz had three doubles and Bill Page two doubles and two triples for six runs.

Bethel got away to a big lead over Collinsville when Dave Hessel smacked a three-run homer in the fifth. Winning pitcher Jim Cox had striking out three with a single in the third inning, and Frank Zarba followed with a run-producing double.

Community Heights got two in the first on Dave Wiers' single. Jesse Wise was the loser.

Losing pitcher Kenny Carr had three hits, but opposing Niedringhaus Methodist collected a total of 14 in the second game, one of them a leadoff homer by Burl Tredwell in the fourth. A double by Tredwell, two errors and Lee Reid's triple produced three more runs in the fifth.

Cedar View scored twice in the second on doubles by Jim Honnoll and Carr. Virgil Mobley was the winning pitcher.

# Full Day For Former President In Political Tour Of Madison County

**SMILE FOR PRESS-RECORD PHOTOGRAPHER** preceded a comment in his evening address which showed former President Truman (light suit) still retains coverage of his administration by some newspapers. He is shown being escorted from an auto through a throng of political leaders and spectators into the McKinley Bridge office Saturday afternoon, in the distance are the Union Electric Co. and the McKinley Bridge, over which he had been driven after flying into St. Louis.

**SURROUNDED BY OFFICIALS AND CANDIDATES**, former President Truman posed for photographers and greater well-wishers in the bridge office. Seated at the left is Illinois Governor Otto Kerner, and seated at the right is Congressman Sidney Yates, U. S. Senate candidate. Those standing include Venice Mayor John E. Lee (far left), County Democratic Chairman Walter Simmons of Venice (immediately behind Truman and Yates) and State Supt. of Public Instruction George T. Wilkins (right).

**STILL VIGOROUS** despite advancing age, former President Truman is pictured during the frankly partisan talk which he delivered forcefully at Saturday night's dinner gathering in Venice. Seated next to the speaker is Gov. Otto Kerner (right), who introduced Truman.

## Wilkins Cites School Gains, Future Needs

George T. Wilkins, state superintendent of public instruction, said Saturday at the Madison county fair that Illinois schools have made tremendous advances in providing quality education programs over the past three and a half years.

Wilkins said outstanding progress in all areas of public school instruction programs has resulted from leadership by his office, which he said has achieved complete cooperation among numerous school and lay organizations throughout Illinois.

He noted that since he was elected superintendent of public instruction in 1958, sixty per cent of the school districts in Illinois have participated in construction or remodeling program to provide modern teaching and workshop laboratories in the fields of science, mathematics, foreign language and other subjects.

"Advances in these fields of study," said the superintendent, formerly of Madison and Granite City, "have been tremendous. One of the challenges now facing educators," he said, "is to upgrade instruction in the 'humanities' to a comparable level."

The chief state school officer explained that consultants in his

## 93 Girl Scouts Open Lakota Day Camp Today

District Four's Girl Scout day camp begins its first week today and will run through Friday. The three-week season will end Aug. 17. Ninety-three Scouts have registered for the first week.

The girls will be transported by bus from Emerson school, St. John United Church of Christ and Nanticoke school to the day camp at Camp Lakota, Glen Carbon.

The camp will be operated by a director, assistant director, adult counselors, senior counselors and a day camp committee.

In the first week, Mrs. Doris Jean Beatty will be director and Mrs. Virginia Jenkins assistant director. Mrs. Elsie Rodell and Mrs. Jean Beatty will comprise the day camp committee.

Teacher certification requirements have been upgraded from the old requirement which enabled a beginning teacher to be certified after one year of college. In 1964, a beginning teacher must have a bachelor's degree.

Hundreds of additional scholarships have been made available to worthy pupils. Teacher retirement benefits have been improved, and special education course enrollments have increased by 20%, with 118,000 exceptional children now receiving benefits.

Twenty-eight special research projects in as many school districts have been studying the techniques of educating the gifted child.

**New Junior Colleges**

Five junior colleges have been formed in Illinois, fifteen others are being planned, and vocational-technical education courses have been expanded.

Supt. Wilkins concluded by saying, "Although I am very proud of my record, there is much, very much, yet to be accomplished."

"If education in Illinois, for youth and adults alike, fails to keep pace with today's rapidly changing world, we will fail in everything, because education is basic to success in any endeavor."

"Expanded education programs cost money, Illinois schools, however, can't afford to be anything but the best."

**TELEPHONE TALK**

by George Mauze, Mgr., Granite City, Illinois

**BIG THINGS ARE HAPPENING**

Big things are happening in the Quad-City telephone business office, bringing about better service for our customers. In May we began a plan whereby certain representatives handle business accounts, and certain representatives handle residence accounts.

In June all mail payments began going to a centralized location in St. Louis. This provides our customers with quicker and more accurate processing of payments. And this month we are reorganizing and redefining the business office. All of these changes are designed to provide our customers with better and more efficient service.

**HELP!**

Writing a newspaper column has its advantages and disadvantages. On the good side, it gives me a chance to discuss a variety of telephone topics and pass on news and views concerning my company, Southwestern Bell.

On the bad side, I sometimes come up "bone dry" and can't beg or borrow an idea to write about.

And that's where you come in.

If you have a question you'd like answered or a subject you'd like discussed, just drop me a line in care of this paper. Only one restriction—keep the subject on telephones and communications. I'm no good at settling family feuds or giving personal, legal or medical advice. And if you come up with a question I can't answer, I'll try to find someone who can. How about it? Any Takers?

**A WORD TO THE WISE**

I ran across this cartoon in one of our company publications. I think the moral is clear without me adding too many words.

July is a popular month for vacations, and if you want to be sure of reservations, always call ahead. Our telephone booths are nice but they were never designed for overnight stays.

So long, see you next month.

## Need For Teachers Stressed At Scholarship Ceremony

One of the greatest challenges facing educators today is the need to recruit additional teachers and guide promising young people into the teaching profession, George T. Wilkins, state superintendent of public instruction, said at a teacher scholarship award program in the cafeteria of Edwardsville high school.

The teacher scholarships, issued by Supt. Wilkins and Madison County Supt. Wilbur R. L. Trimpe, were presented to 105 Madison county high school graduates. Each is valued at \$1000 over a four-year period.

Wilkins stressed that adequate and capable teachers are vital to the entire economy and to the total American way of life.

"Without the basic and fundamental training received at the teacher's side, there would be no physicians, lawyers, scientists," he said.

He added that there is a shortage of 10,000 qualified teachers in Illinois at present, and the rate the demand is being fulfilled, this shortage will continue for an indefinite period.

**Need \$300 Each Year**  
"Within the next ten years," Wilkins said, "Illinois' population is going to increase 21% and our school enrollment by nearly the same ratio. By 1975, enrollment in our colleges, is expected to increase by about 100%.

Every year, we have some 60,000 more children in the public schools. We need two thousand new teachers each year just to accommodate the enrollment increases."

In a word of caution to high school graduates, the chief state school officer said there is an oversupply of teachers in certain fields—boys' physical education, business education, etc. Nevertheless, there is a great demand for trained instructors, he said in the following areas:

Library services and instructional materials.  
Elementary schools.  
English and journalism.  
Vocational-technical education.  
Special education.  
Biology, science, the physical sciences and chemistry.

Wilkins added that although he encouraged the 75% increase in state aid in the past three-and-a-half years and increases in the number of available teacher scholarships, "we are going to have to do much more."

**Wants Financing Studied**  
He said school and state officials will be forced to undertake a scientific sound reorganization of methods of school financing. The law of supply and demand, he said, will be at work prohibiting the recruitment of new teachers, unless a method can be found to permit an upward adjustment of teacher salaries.

Seriousness of the situation was stressed by Wilkins, who said Illinois schools last year had to recruit two out of three new teachers from other states.

"This shows our problem is two-fold. Teacher training in Illinois must be accelerated, and salaries must be good enough for Illinois schools to retain a favorable competitive advantage over other states."

Wilkins said he has been trying to improve the situation, citing 1543 additional teacher education scholarships and 250 annual special education scholarships made available to high school graduates. Pool scholarships are now being used on a 100% basis.

The superintendent said he has worked to improve the teachers' retirement system in Illinois to where it is now one of the finest in the nation.

**Degree Requirements**  
New teacher certification legislation has been gradually implemented in the past three years. Each beginning teacher will be required to have a bachelor's degree in 1964. The old law required only one year of college training.

The superintendent added that he is encouraging development of educational television for each district in Illinois as well as the means to implement greater use of teaching machines and all media of instruction.

Wilkins concluded by urging rapid development of additional vocational-technical courses in high schools.

"In this industrial and mechanized age which is fast becoming more complex and dependent upon technology and performance through scientific applications, only a quality education will suffice."

# Vamos! Coolidge Latin American Rhythm Ensemble Off To Mexico

## Arrival In Mexico City Scheduled Early Today

Coolidge junior high school's Latin American rhythm ensemble, after months of preparation and practice, was scheduled to arrive in Mexico City early this morning on the first leg of a three-week good will musical tour of Mexico.

Traveling by chartered bus, with parents, chaperons, a nurse and its instruments aboard also, the ensemble left here at 1:15 p.m. Friday, traveled on through the night, made an overnight stop at Laredo, Tex., Saturday and was up at 4:30 a.m. Sunday to begin the final leg of the trip into Mexico.

Today, the students were to hold a 10 a.m. rehearsal on the roof garden at the Hotel Monte Casino, which will be their headquarters during a two-week stay in Mexico proper.

The first of eight four-concerts of Latin music will be given at the presidential palace in Mexico City tomorrow afternoon, with the ensemble director and tour organizer, Robert D. Todoroff, leading the Granite City junior high school students in their first in-person appearance outside this country.

After they acclimate themselves to Mexico City's 7000-foot-high plateau, the young musicians will have time for tours of historical sites and shopping and sightseeing trips in and outside of the Mexican capital.

ADIOS! Latin ensemble director Don Todoroff (in bus doorway) bids goodby to heads of two organizations which helped make the trip to Mexico possible, Associated Retailers & Civic Association President Maurice Rich (left) and Paul Lichtenberger (right) president of the Tri-Cities Chamber of Commerce.

## Those Who Serve

**THE CIVIL DEFENSE VOLUNTEER**  
he helps you prepare for survival...

Making preparations to survive an H-Bomb is more sensible than guessing whether it will ever be used against us.

The Office of Civil and Defense Mobilization is in charge of carrying out the National Plan of survival. This plan establishes the role of the federal government, the states, their municipalities, and individuals in the event of an attack.

The Civil Defense volunteer is your local representative of the OCDM. He gives of his time and effort to see that you are prepared to care for yourself and your family.

How well prepared are you? Do you know the community plan for emergency action? Are you familiar with the warning signals, CONELRAD, your local welfare assistance station? Do you have a fallout shelter?

To be alive after an H-Bomb attack, you must be trained to use every mental and physical resource at your disposal.

The National Plan is the federal blueprint for survival; only you can make it entirely effective. Contact your local Civil Defense volunteer for more information. He will be glad to help you prepare for survival.

# 25 YEARS AGO

The following items were taken from the files of the Granite City Press-Record.

The Granite City council is considering spending \$288 to purchase a machine for painting white stripes for pedestrian lanes and street intersections. A machine borrowed from the state was used to demonstrate how the lines are created.

Cleve Curtright, superintendent of streets, said the machine would pay for itself in a short time as a labor-saving device. It is found best to mark off lanes for pedestrians. He also said lines could be made for auto parking spaces.

Dr. Irvin Wiseman has announced the opening of new offices at 1904 Delmar avenue for the practice of medicine and surgery. Wiseman, a lifelong resident of Granite City, was instructor of obstetrics and gynecology at St. Elizabeth Hospital.

The Tri-City Associated Retirees hired a new doctor to replace Arthur Roman, who has resigned. G. B. Usary, a graduate of the University of Chicago Law School, was hired.

Donald Chase, 12, son of Mr. and Mrs. Lee Chase, 2514 Iowa street, won the class B soap box derby tournament in St. Louis and placed second in the A division. Chase defeated his running mate, Billy Reinhold, 2631 Iowa street, by half a car-length for the class B championship.

A miniature tunnel described as a "frankish whirling" swept through Venice, severing a part of the finished cottage of Mr. and Mrs. Geo. Riggs off its concrete pier foundation and doing other damage.

Mayor M. E. Kirkpatrick has appointed patrolman Ray Williamson, Ed Holmes and Roy Holmboer to the pension board to administer the newly established policemen's pension fund.

Quad-City and other institutions are being offered free 300 to 400 bushels of apples a crate from the orchard.

Miss Ellen Grace Morgan, Washington avenue, left for San Diego to join her sister, Miss Pearl Morgan, for a month's stay in California.

The Knights of Columbus announced a boat ride to be held Saturday at Horseshoe Lake.

Mr. and Mrs. Verne Hargrave of Venice were hosts for a visit of Dr. L. E. Lee of Carbondale, state Sunday school director.

## Fuel Economy Factor In Outboard Boating

(Eleventh of a series)

Everyone likes to save a "buck," and if you're an outboard skipper, one sure way to do it is to cut down the fuel consumption of your outboard motor.

Keeping a lighter hand on the throttle and your equipment shipshape can do it.

For some boatmen, a throttle with only two positions—wide open or off—would be satisfactory.

They enjoy a fast ride and are usually not too concerned with the amount of fuel used.

Others, however, would rather reduce fuel consumption by taking it easy when speed is not really essential. As a result, they will be way ahead when fuel costs are compared.

Flaming Atop Water.

Engineers have found that maximum economy at a practical speed is achieved at that point where the boat comes to plane and rides on top of the water.

With certain outboards featuring a built-in fuel saving device, extra economy is also possible at higher speeds. These motors are designed so that the spark may be fully advanced while the

throttle is partially retarded.

In this position, the boat will still clip along at a good speed but fuel costs will be shaved substantially.

To take advantage of this feature, the operator must fully advance the throttle and then back off to the three-quarter position.

Need Good Propeller.

Propellers have a lot to do with fuel economy. By making sure the propeller is properly matched to the boat and old combination, and it is not bent or nicked, your engine will run more efficiently.

This is easy to understand when you consider that a propeller revolves several thousand times each minute.

Also, check to see that spark plugs are in good condition. Plugs that are worn fouled will play havoc with fuel consumption.

Fuel economy is a relative thing and, as the saying goes, "One man's meat is another's poison."

But whatever your feelings on the subject, by following these tips, you should be able to come up with some real savings in your outboard motor fuel costs.

## Local Taxes To Provide 88% Of Venice Schools' Funds

More than 88% of the revenue anticipated by Venice school officials this year will come directly from local taxes, according to figures in the tentative 1962-63 budget. Final budget action is planned Aug. 20.

By contrast, only about 8.7% will be in the form of state aid and grants from the federal government. The other 3.3% will come from direct community services, such as sale of student lunches and tickets to athletic events.

Anticipated taxes amount to \$561,345, which is 92% of the actual levy. Supt. John O. Pier said past experience has shown a loss of about 8% of the levy through non-collection and costs of collection.

Total income expected from state and federal funds amounts to \$55,405, while the anticipated income from community services totals \$20,976. Cash on hand in all departments as of July 1 totaled \$129,518.

Also included in the tentative budget is \$6000 from the Venice

township loanable fund, but this figure may be delayed before final budget approval is given by the board.

**Amount Uncertain**  
Austin Lewis, school board attorney, has recommended the figure be dropped from the budget because of the uncertainty of the amount and time of receipt.

Actual budget totals show estimated receipts of \$855,570, but this figure includes duplications due to inter-fund transfers. Budgeted expenditures of \$809,149 also include the duplications. Anticipated taxes are broken down as follows: educational fund, \$397,863; Illinois municipal retirement fund, \$80,992; transportation fund, \$62,000; working cash fund, \$9,200; bond issue working cash fund, \$9,200; bond and interest fund, \$65,518; and building fund, \$65,981.

Major portion of the state and federal government aid will go into the educational fund. General state aid expected amounts to \$33,958. Other state aid expected includes \$2536 for drivers' training, \$1000 for vocational education, \$6319 for vocational education (home economics) and \$4493 for school lunches.

**Includes NDA Grants**  
Two National Defense Education Act grants totaling \$1356 will be added to the educational fund, along with anticipated receipts of \$4600 from athletics and \$15,376 from sale of school lunches. Costs of each of the latter are greater than income produced.

An additional \$1000 is expected from the re-sale of supplies, including such items as used lumber and books.

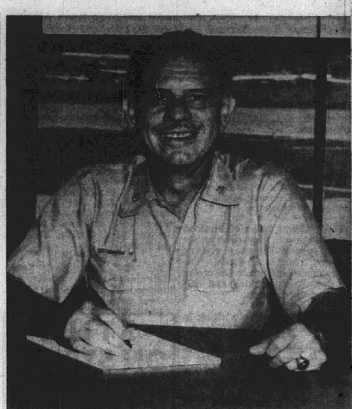

The new budget is up from last year, when expenditures amounting to \$774,085 were budgeted and \$698,854 actually was spent.

The 1962-63 budget as tentatively approved by the board July 16 is available for public inspection at the school board office. Final action will follow a public hearing at the office at 7 p.m. Monday, Aug. 20.

**Rev. Brand Appointed Bethel Chapel Pastor**  
Trustees of Bethel Chapel Church, 21st street and Dewey avenue, have announced with regret the resignation of Rev. Ralph Cook, pastor of the church for the past 44 years. It was announced during the weekend. Rev. and Mrs. Cook will continue to reside in Granite City but were forced to curtail their activities for health reasons. He will continue to remain active, however, in the Sunset Hill Camp meetings, an annual event which is in progress now.

The new pastor, Rev. Kenneth Brand, took over his duties at the local church Sunday. Formerly of Paducah, Ky., Rev. Brand is married and has two sons. He is well known locally, having conducted services here in the past.

SERVING RURAL ILLINOIS

# Farmhouse, 1962

(It's all-electric)

Ever notice how so many of today's new farm homes in Illinois look exactly like modern city homes?

Electricity is one of the big reasons that today's Illinois farmer enjoys the same better living as his city cousins.

Actually, the farmer gets even more use out of low cost electricity than the city dweller. First, as a homeowner, he and his family enjoy to the fullest the convenience of modern lighting and labor-saving electric appliances. Second, as a businessman-farmer, he depends on electric power equipment to take the drudgery out of farm chores and increase his efficiency and profits.

Serving rural Illinois has always been a top priority program at Illinois Power. We serve over 100,000 customers in rural areas . . . more than twice the number served by the taxpayer-subsidized rural electric cooperatives in our area.

Every farmer in our territory who wants electricity has it.

### HOW LONG CAN A MEDICINE LAST?

Each one has his own problem. Some must be taken soon after compounding for they lose potency daily. Certain drugs deteriorate quickly when exposed to light—others to heat. Some medicines absorb moisture from the air—others can give up less stable ingredients and decompose.

Pharmacists have been taught how to protect the potency of all drugs. That is why a pharmacist must attend college for many years to gain this knowledge. When you get your medicines from your pharmacy, potency is positive.

YOUR DOCTOR CAN PHONE US when you need a medicine. A great many people entrust us with their prescriptions. May we compound yours?

## Vigorous Appeal

(Continued from Page 1)

In stores and men and women who work in plants and factories and in the service trades.

Truman said he also has a special concern for those who cannot provide for themselves — the older people, the sick, dependent children and all those who need help.

**"Trickle Down" Policy**

"But the Republicans, well, I think they try to, in their own peculiar way. But they believe in starting at the top and letting things trickle down. They believe in special privileges for a special class at the top of the economic ladder."

Here I am talking politics, I guess that is what you expected. It is really most appropriate, because politics is government, and government has a very important opportunity to do something about your government in November. To be called a politician, by the way, is one of the highest compliments.

There is no better occasion than this for a Democrat to tell the country that we have an alliance and support, for the progress of working people and the Democratic party have always gone hand in hand.

**Past Legislation**

"It was the Democrats under Woodrow Wilson who gave you the Clayton Act, establishing the principle of labor as a commodity. It was the Democrats under Franklin Roosevelt who gave you social security, gave you the minimum wage law and established your right to organize and bargain collectively."

And so it has come to pass. In every increase in social progress, the Democrats have always and every measure for the benefit of working people, it is the Democrats who got to work and got it done for you.

"When the Democratic party passed had far unserved responsibility in Washington, workers and their families have shared abundantly in the benefits of progressive government. Where the party has fallen on bad days, labor has suffered the bitter consequences. Democracy everywhere are proud, therefore, to stand with you, in celebrating this day."

**World Outlook Gravid**

"We live in a world with a very grave situation on a worldwide basis. This great republic has always been known for its honorable dealings and truthful statements of policy."

"The national debt was reduced \$279 billion to \$232 billion in 1946 and 1947. It was raised to \$237 by Korean policy to save the free world. Its service charge was \$54 billion."

The candidate for congress, senator, governor or president must be an honorable man. He must be a man of principle, not an opportunist. He should not adjust his policies to polls or to political prophets. He should not represent any special interest."

He must stand for a program in world affairs that will lead to peace through strength and leadership. He must understand that a strong, prosperous United States is necessary for the rest of the world. It is up to the poor man, rich man, economic royalist and ordinary citizen place and keep this nation where it belongs as the leader of the free world and as a model of what good government means at home and abroad.

**Should Not Show Faces**

"If the Republicans had any real sense of decency, they would be ashamed to show their faces. They have a day that is all their own—Big Business Day. For won't you show your faces on the calendar because they celebrate it 365 days a year."

"It is most natural and proper for the Democrats to take the political ball rolling. It is now falling in the campaign of 1962, and it is not going to stop until we re-elect a Democratic congress in November."

Departing from his prepared text, the former president interjected, "I don't mean the ones who talk Democratic and vote Republican."

**"Real Democrats"**

"The welfare of the country demands a Congressional majority large enough to overcome any coalition of reactionary forces, and that takes a lot more real Democrats. As we have seen during the last few years and weeks, powers of the present may be used for the welfare of the people."

"We must have leadership in the White House, and my friends, we have it now. The powers of the present may be used if this nation is to survive and prosper—to rally the Congress and the people in support of a great common purpose."

"The powers of the president can be used to move this nation forward with strength and vigor to meet the great responsibilities of the future."

## Granite City PRESS-RECORD

Page 14 Mon., July 30, 1962

ties and opportunities that face us today and tomorrow.

"I am sure all of you know that before the Democratic convention made its choice, I was supporting another candidate for the presidential nomination."

Unlike the opposition party, Democrats do not believe that it is un-American to permit more than one candidate to seek our party's highest honor.

"We believe that free competition is more likely to produce the best result. At the convention, Jack Kennedy won the nomination. I am from Missouri, you know, and I have to be shown. Well, he showed me. Truman declared, being interrupted by loud applause at his Kennedy reference."

Truman said the current president displayed "what it takes to be a winning candidate and a good president—a lot of honest, old-fashioned courage for one thing, and the real quality of forceful, forthright leadership for another."

"The best I find it possible to say about the Republican opportunity is that it is a real quality of public officials by election is that in such hands the happy and honorable area of public life has become a dismal science. They are cunning and clever, and may be skillful debaters, but I challenge you to name for me a single measure bearing a Republican name that offers any comfort and hope for the working people or their families for the aged, underprivileged or unemployed."

"This campaign, as usual, finds the Republican candidate playing that old game in which the hand is quicker than the eye. After a career of devoted service to the special interest who grub-stake them, they want you to believe that they are dogooders at heart."

"While they stand at the front door proclaiming charity and tolerance, their supporters are herding the forces of racial, religious and anti-union bigotry in the way of the back door. No one will ever make me believe they are not smart enough to know what is going on."

**Look At Voting Record**

"Do not be deceived. Do not let the Republican propaganda campaign this year make you forget the way they behave in the years between campaigns. If anyone talks to you about a Republican candidate's experience, get out his voting record and see what kind of experience it really was. He'll never tell you the truth about his record."

"If you want public servants who have a lot of experience in being against the things you are for, then vote for Republicans and you'll get what's coming to you."

"In this campaign, let us all devote our attention to the genuine issues that constitute the past and pressing business of our government. If you do not choose wisely, in the light of these issues and the known records of the candidates, the consequences will plague you for the rest of your lives."

False and inflammatory arguments to divert you from the support of your real friends, you will have only yourselves to blame."

"But you don't have to stand for it. The coming election gives you a great opportunity to fight back in your own behalf for these issues and the known records of the candidates, you will have only yourselves to blame."

"Remember, too, that your job itself may well be at stake in this national campaign. The bread-and-butter problem of job security, and of assuring an income sufficient to maintain a decent level of life for your family, will be affected by the better or for worse by the result."

"Urging that the public heed the candidate whom he can best support."

The ship and crew recently returned to Subic Bay, the Philippines, after a week-long visit to Hong Kong. In mid-May, the Valley Forge participated in landing of Marine Corps troops in Thailand.

### Two Motorcycles Caught Fire Within One Hour

Two motorcycles caught fire under similar circumstances within an hour Thursday afternoon.

At 6:05 p.m., firemen from the Nameoki station responded to an alarm to the 4600 block of Marvillie road. A motorcycle driven by Gene Hoelt, address unknown, had caught fire from a carburetor backfire. Damage was estimated \$200.

At 2:45 p.m., firemen from the main station answered an alarm at 20th street and Madison avenue, where a motorcycle operated by Olan Goller, 3975 Lake drive, was on fire, also from a carburetor backfire. About \$75 damage resulted.

## Candidate Critical of Clerk Office Policies

Policies of the county clerk's office were assailed Friday, Republican Day, at the Madison county fair by Robert T. Byrne, Granite City, GOP county clerk candidate in November.

Other speakers during the day were William Scott, running for state treasurer; Ray Paeg, candidate for state superintendent of public instruction; State Rep. George Smith; Dale Hyle, county judge candidate; and Charles Barnett, county Republican chairman. Attendance was estimated at 175.

A realtor, Byrne said he is a candidate because he considers the present office the most inefficient in the county courthouse. "Waste in public office causes increase in taxes," he said. "I know that real property has been taxed to its limit," he asserted.

"Just recently, the county clerk's office has been extensively and expensively audited. I question the need of this program when the Board of Supervisors has discussed the possibility of closing the courthouse one extra day a week and his advised all offices to trim their budgets by 25%." Was every other avenue explored before these tremendous sums were spent?

"Simple expedients such as microfilming records to conserve space, automatic business machines to save salaries and desk space were not used. Instead, the entire courthouse was turned upside down. The Board of Supervisors was forced out of its meeting place and moved to the basement and the county auditor was forced to move into other offices.

"These moves caused other decorating and renovating problems, plus inconvenience to taxpayers."

The clerk office was done in an interior decorator's firm, imports of pastel colored furniture and typewriters, typewriters and all the trimmings—at a time when county services are to be curtailed 25%. A private elevator was installed at a cost to the taxpayers of \$24,600.

In 1958-59, voter registration cost taxpayers of Madison county \$33,016. The bill for 1959, also an election year, is \$44,540. A spot check of one precinct, Granite City Eight, reveals 12 discrepancies — one voted twice, one voted three times, one voted four times, one voted five times, one voted six times, one voted seven times, one voted eight times, one voted nine times, one voted ten times, one voted eleven times, one voted twelve times, one voted thirteen times, one voted fourteen times, one voted fifteen times, one voted sixteen times, one voted seventeen times, one voted eighteen times, one voted nineteen times, one voted twenty times.

"This is not an isolated case. I have been a committeeman since 1952, and I have presided over elections. I have seen the same thing happen over and over again. In the primary last April, 25 had to vote by affidavit in my precinct; we had to wait for the deputy to bring us an additional supply of affidavits. I charge that voter lists are in error by at least 10% I am not charging election fraud, but this is exactly the thing that makes fraud possible."

### Venice School Balance Cut \$2887 In 1961-62

The annual financial statement of the Venice school district for the 1961-62 fiscal year ended June 30 shows expenses for the year including fund transfers, totaled \$878,877.

Total received less the July 1, 1961 cash balance, was \$975,970. Balance on hand at the start of the year was \$132,716 and, as of June 30, 1962, the figure was \$129,829. Actual expenditures were \$688,854.

Expenditures from the educational fund during the year amounted to \$705,325, of which \$257,501 went for teachers' salaries, \$27,884 for employees' salaries, \$189,858.17 for miscellaneous expenses and \$200,000 for investments. John Birdick, former Venice township school treasurer, reports.

Other expenditures were: building fund, \$46,901; bonds and interest, \$94,669; working cash fund bonds, \$8231; transportation, \$9,880; and working cash fund, \$113,850.

## Girl Struck By Golf Club, Hospitalized

A local girl was admitted to St. Elizabeth hospital Thursday for observation after being struck by a golf club. Three other youngsters received emergency treatment Thursday and were released. Rosemarie Garrison, eight, was admitted for observation at 4:15 p.m. after she was struck on the right forehead by a golf club.

She had been playing with two other children in a neighbor's yard. One of the other children swung the club and missed the ball, striking her forehead. The laceration was sutured. Daughter of Mr. and Mrs. Glenn Garris, 217 Granville street, Venice, she was listed in fair condition.

Lono Ray Jr., 12, received treatment for a lacerated left middle finger. A son of Lono Ray Jr. was hurt in a fall into a canal.

Curtis Mathis, 10, was x-rayed at 8:10 p.m. Thursday after being struck on the right arm by a batted ball. He is a son of Mr. and Mrs. William Mathis, 2728 Marshall avenue.

## Police Group To Bring Three-Ring Circus Here

Performances will be held in a 300-foot square tent at the City Speedway on Highway Three near Mitchell on Sunday, Aug. 26. On the three days previous, the circus will be held at other locations in the county. Further details are to be announced.

### Recreation Program To End With Family Picnic

Parents of children attending the Granite City park district's summer recreation program are being invited to attend a picnic supper at the 27th and State street picnic area of Wilson Park Thursday night, Mrs. Helen Blockman, summer recreation director, said today.

Parents should pack their own picnic baskets and meet in the park at 6 p.m. Mrs. Blockman added. Following the picnic there will be group singing, entertainment from each of the playgrounds in the program, a watermelon eating contest and a display of handicraft from each of the playgrounds.

Trophies will be presented to the winners of playground events during the program, which has come to be a traditional wrap-up of summer activities.

Awards will be given for the largest family in attendance, as well as the oldest and youngest persons present.

## Anniversary Air Show At Scott Base Sept. 1

The "Thunderbirds," world famous U. S. Air Force demonstration flying team, will be the headline attraction at Scott Air Force Base Saturday, Sept. 1, when two anniversaries are celebrated by an open house, extensive air show and entertainment. Base Commander Col. William C. Armstrong has announced.

Events including the U. S. Navy "Cutting Stars" exhibition sky diving team, USAF Drum and Bugle Corps, Bevo Howard's stunt flying, MATS Command Band Concert and a fireworks display will salute the 15th anniversary of the Air Force and Scott's 40th birthday.

The latest transport and fighter aircraft will be displayed on the flight line, and a model of the X-15, a Mercury space capsule and home-built racing aircraft will be shown.

A complete schedule of events will be announced at a later date. Col. Armstrong said.

The idea of holiday events at Scott was developed by Col. Armstrong as a safety outreach

## MORE ABOUT

### Truman Citation

(Continued from Page 1)

revisions in his agenda and remarks, Lewis realized after the adjournment that he had not eaten his dinner, for which he had paid \$20.

Plain-clothes officers were close by at all times as local authorities provided an escort similar to those given as current president by the Secret Service. Venice Police Chief Frank DeWitt praised the cooperation of Granite City, Madison and Venice police, sheriff's deputies and state police, and said Venice firemen and Madison auxiliary police kept traffic flowing well despite the large volume.

A former but still fiery speaker, the relaxed president had at the meeting had become exceedingly setting for his talk—tremendous warm due to the large gathering. One of those working hardest and shedding the most pounds in the high temperature was Venice City Clerk William M. Ebersoldt, who aided in coordinating activity at and near the speaker's platform. Joseph S. Szoke, of St. Clair county, program chairman, also spent a busy day.

Vocal music was provided by a soloist, Miss Phyllis Zaganelli of Collinsville. There was organ dinner music, and the evening's selections included, not surprisingly, the "Missouri Waltz."

Dressel Continuing

Talks On New Contract

Jon L. Dressel, president of Dressel-Young Dairy Co., said Friday that negotiations are continuing with Teamsters' Local 325, which represents the dairy's in-plant workers and drivers. "I believe our discussions will be conducted in the usual friendly spirit, and expect we will reach an early settlement," Dressel said. Commenting on unstable market conditions in the industry, he noted that these have worked hardships on some independent dairies. "When our last contract was signed three years ago," said, "three other dairies joined us in negotiations. All of them—Granite City Dairy, Massey Dairy and Granite City Ice Cream Co.—are now out of business."

Union Electric Operators

Talks Continue Today

Contract negotiations between Union Electric Co. and the Operating Engineers Union Local 148 were continued at 9:30 a.m. today after unsuccessful talks Saturday and Sunday. Approximately 50 stationary engineers at the Venice Power plant are involved in the talks to renew a contract expired July 1. Local 148 rejected a company offer Friday. The local has authorized its negotiating committee to call a strike if necessary. Principal issues are wages and fringe benefits. Federal Mediator Monroe Sheehan of St. Louis is meeting with the negotiators.
